Want some friendly in-camp competition?
Check out the bragging board located by the fish house and main docks.

Record your biggest catch of the day.

It is our goal to make your stay with us as enjoyable and comfortable as we can. We take pride in offering you a great experience during your stay.

Please review the following new details for your comfort and enjoyment.

WIFI

Each cabin is connected to FREE WIFI. Please connect to the IPC Guest Network, we have boosters around camp for your convenience.

WIFI password is: IPCGUEST (all upper case)

Missing Something?

We have attempted to equip your cabin with all the necessities you may need during your stay. Should you find that you are missing a required item or have run out of something please feel free to ask one of the staff. We will be happy to track it down for you.

Cabins

We encourage you to enjoy your cabin as if it were your own home and trust that you will treat it that way. Please do not remove furniture or dishes from your cabin to another. All items are required to remain in your cabin during your stay. Each cabin has been equipped with everything that you may need, however, if there are special items you need just let us know and we will do our best to accommodate you. For those who would like to slow cook while gone fishing, a slow cooker is available for your use. Stoves and ovens should not be used while away from cabin for an extended period of time.

Grills / BBQ's

These are provided for your use free of charge for the week. Please remember to turn the gas supply valve off after use and leave area clean for the next group.

Smoking

All cabins are **SMOKE FREE** as per the Smoke Free Ontario's Act. Should anyone smoke in the cabins during your stay, a cleaning fee of \$300.00 will be applied to your account.

Fire Extinguishers

Each cabin has been equipped with a fully serviced to code extinguishers, located by your exiting point.

Smoke Detectors

Each cabin has been equipped with fire detectors. Please leave them in service for your own protection.

Housekeeping Services & Policies

We offer light house keeping duties during your stay, staff will be around Monday's & Wednesdays to clean the bathrooms, sweep, mop, refresh towels, remove garbage, etc. If you need anything in between days, please notify a staff member and we will assist you as needed.

We appreciate having a nice clean environment, both indoors and outdoors. As a guest of a light housekeeping resort, the following is a guide for all guests to follow to ensure a standard of acceptable cleanliness:

- Wash & dry all dishes and put them back in their proper drawer or cupboard
- Pick up unnecessary trash on floor
- Make sure stove and oven looks acceptable
- Pick up any trash lying on ground outside your cabin, i.e. bottle caps, cigarette butts, candy wrappers, etc.
- Turn off lights

Information

In an effort to keep our costs down, which enables us to continue to keep your vacation more affordable, and in helping with the environment, we would appreciate your diligence on matters that conserve energy such as turning off lights when not needed.

Beer Bottles & Beer Cans

Please put your beer bottles back in their original box as well as your beer cans. This will help the cleaning staff considerably at the end of your stay.

Cigarette Butts

Please do not throw your cigarette butts on the grounds. We have placed containers around the camp and at each cabin for you to dispose of your cigarette butts.

Safety

Please drive slowly coming in to camp being sure to watch closely for children & wildlife.

Quiet Time

We politely request that all guests keep the noise level down after 10:00 pm for the benefit of all guests.

Campfires

Fires are only allowed in fire pits. We will inform you of any fire restrictions during such times that no fires are allowed. Outdoor fire wood can be purchased at the main office.

Fish House & Cleaning

Have your fish cleaned and de-boned (additional fees apply) let us know if you would like this service. If you would like to clean your own fish, please do not clean them at your cabin but use the fish cleaning house that is equipped for this purpose.

Bait & Tackle

We sell bait and tackle in the store on-site.

Small & Medium Minnows , Large Minnows, Leeches, Worms

Store Items

A variety of items are available in the office/store for purchase including a wide variety of local farm meats great for the grill, Freezies, Snack Foods, Drinks, Candy, Chocolate, Gum, Bait, Tackle, Ice, Wabigoon Chain of Lakes Clothing Line, Hats, Maps, Incidentals & much more.

Laundry

We have a laundry facility for the use of the guests (additional fees apply) This can be added on to your bill at the end of your trip.

Check-out

Check out time is 8:00 am on Saturday mornings. If you will need a later check out time, requests should be made in advance.

Gratuity

If you found your cabin clean and in good order, and if you feel the staff did their best to make your trip enjoyable, please show them your gratitude.

Perch - C = 25 in Possession - No size limit

Crappie - S = 15 in Possession - No size limit

Crappie - C = 10 in Possession - No size limit

Walleye

WALLEYE

The warmer water also means our Walleyes grow faster and bigger than Walleyes in other Lakes. Wabigoon is an easy lake to fish. There are endless bays, islands, rocky points and sunken weed beds, which are all hot spots for Walleye. With such easy to recognize structure, it's a lot of fun exploring the lake and finding new Walleye holes.

Northern Pike

NORTHERN PIKE

Are one of the most common fish in Northwestern Ontario. They are found in almost every lake and they are easy to catch because they attack everything that moves. Wabigoon Lake is no exception. Even with our high Muskie population, Northern Pike still flourish and are one of the dominant fish species in the lake.

Muskie

MUSKIE

Wabigoon Lake is one of the hottest Muskie lakes in Ontario and maybe in all of North America. Not only are great numbers of Muskie found in the lake, the Muskie get big. Some people call Muskie the fish of 10,000 casts. You will never hear that quote around here.

Muskie's are out in open water, along the shore, in bays, and off rocky points. Generally the best place to catch them is along the weed beds as they wait for unsuspecting feeder fish to venture out of cover. The biggest reason why there are so many Muskie is the presence of Cabbage Weed, which is their favourite ambush cover, and the abundance of food. Wabigoon Lake is stuffed with Perch, Walleye, Smallmouth Bass, Pike and other feeder fish. It's an endless banquet. With all this food combined with the warmer than usual water, Muskie grow fast and grow big. Big water also means big fish. Wabigoon Lake and the adjoining lakes gives you over 50,000 acres of prime Muskie habitat. The secret to Muskie fishing is to have patience.

Bass

SMALLMOUTH BASS

Smallmouth Bass are the hardest fighting fish pound-for-pound. They are also well known for jumping in the air. If they are so common in Ontario, why fish for them on Wabigoon Lake? The fact is that big water and the right habitat produces big fish. In Wabigoon Lake, some of the biggest Smallmouth Bass in Ontario have been caught and released. Wabigoon Lake has over 50,000 acres of prime Smallmouth habitat. Its shores are lined with rocky points and good spawning streams. The interior of the lake is dotted with hundreds of rocky islands and shoals. All these rocks produce an abundance of their favourite food, which is crayfish. There are also massive schools of minnows in the lake and good weed cover around the rocks. All this food produces great sizes as well as great numbers.

CRAPPIE

Crappie have been making their way north in Ontario for a number of years. Even though they are a foreign species, the MNR does not consider them an invasive species because they do not harm the environment or effect the reproduction of other game fish. Crappie have been in Wabigoon Lake for years now and the population has not only grown substantially, the rich fertile waters of Wabigoon have allowed the Crappie to get big. Our guests are amazed at the size of our Crappie and they are getting bigger every year.

PERCH

Wabigoon Lake is a very unique lake for Northern Ontario. It's not deep and cold like most northern lakes. It's fairly shallow with countless weed-beds and structure. As a result, Perch flourish in huge numbers with many reaching the size of Jumbo Perch.

Meet Our Guide

“Many people go fishing all of their lives, without knowing that it is not fish they are after.”

Hi, my name is Simon, I moved to Northwest Ontario 13 years ago to start and raise a family away from city life. I love the outdoors and in particular fishing, I was born with an innate love for fishing and my earliest memory of me indulging my passion was somewhere in the Italian Alps at age 3 and always enjoyed fishing wherever in the world my parents took us, whether in the ocean, rivers or lakes. I am now blessed with my own family who also enjoy the great Northwest Ontario outdoors and family time is usually spent adventuring as my son Jack calls it.

I live a stones throw from Wabigoon Lake Outfitters and began working there as a guide in 2018. I enjoy nothing more than helping my guests fill the boat with fish and always work hard to achieve that goal, but I also hope my love of what this pristine wilderness has to offer inspires my guests to feel the same calm I do when I immerse myself in the beauty of it all.

WHITETAIL DEER Hunting

Dryden's reputation for Whitetail Deer hunting has been growing for years. Our area is now considered the top deer-hunting destination in Canada and the focal point for deer hunters that truly wish to harvest a Whitetail Buck of trophy calibre.

The vast wilderness between Dryden and Ignace is the northeastern section of the Whitetail Triangle and the most productive. Wabigoon Lake Outfitters is located right in the middle of it.

Thick mature pine forest, light-cover softwood bushlands and open grasslands along with hundreds of lakes and streams have created the perfect habitat for Whitetails to proliferate in great numbers and get big. Our area has a reputation for Bucks with massive racks. One aspect of our bucks that sometimes gets unnoticed is that our bucks have massive bodies with thick necks and big heads.

As outfitters, our business is dependent on knowing where the deer are, where they have been and where they are going in order to give our hunting guests the best chance at harvesting a Whitetail Buck of their dreams.

BEAR Hunting

Ontario has been overrun by Black Bears. In the last ten years, Black Bear numbers have doubled or even tripled in some areas. Some say it's from a combination of milder winters, absence of spring hunting and better-managed forestry. To bear hunters, all that matters is there are more bears and a greater availability of really big Trophy Black Bears, which is the main factor in the success of your hunt. Our town "Dryden" was named after all the bear dens in the area. Traveling to the Dryden area in the fall to prepare for hibernation is an ancient migration, which the bears cannot resist.

FIN and FEATHER Hunting

The cool crispness of the fall air will transform the landscape into hues of reds, oranges and yellows; it's time to clean up the shot gun, it's hunting time! Cool water brings the fish in shallow, and the cool air summons the Grouse to feed heavily in preparation of winter. We have endless networks of trails and roads that are prime grounds to attract the prize bird of the North the Ruffed Grouse. Also abundant and great table fare are Spruce Grouse, and on a rare occasion you might even get a bead on the flighty Sharp Tail Grouse.

RV PARK

Wabigoon Lake Outfitters RV Park features 16 premium lake view and semi lake view private spacious Sites Approx. 35 feet wide x 70 feet long, each site is surrounded and separated by trees to allow campers privacy. The RV park features a nice lake view walking trail from one end of the RV Park to the main office/ store.
